NEW TREATMENT LABIOMER

LABIOMER, a marine cosmetic brand, propose cosmetic products coming from their know-how of thalassotherapy and their knowledge of the skin and its needs.

Labiomer products contain pure algae, harvested at the high-end of Brittany, in a labelled marine park at the heart of "mer d'Iroise".

Marine ingredients of Labiomer care have an incredible concentration of trace-elements and essential minerals for the proper functioning of our cells.

Face treatment Oxymarin

1h • 80€

The specific anti-pollution treatment for dull and tired-looking skins ! It eliminates toxins and makes the skin breath, thanks to the association of an oxygenating massage to the active ingredients of Oxymarin mask. The complexion regains freshness and luminosity.

Light Legs treatment

THE STORY OF CASANERA...

Marie Ceccaldi loves her native Corsica and is devoted to her personal legacies. Her mother pioneered the formulation of «Calvi Nature» natural cosmetics in 1979.

Marie minds a family treasure, a herbarium crafted by 3 generations. Her great-grandmother was a healer who fashioned herbal remedies and other beauty secrets affectionately kept by the women of this island.

Marie created Casanera made in Maquis, 100% organic skin care products. All Casanera products are made to the standards of the French «Nature et Progrès» label. Corsica has a preserved soil located between mountains and sea, and «the most beautiful island» possesses a flora with rich dermatological virtues. Plants from Corsica have the particularity of growing on a nourished land that is inundated with sun.

CASANERA made in Maquis uses these plant essences in exceptional cosmetics and fragrances. CASANERA hand harvests only wild Corsican plants and the essential oils are distilled in the Balagne region according to ancestral techniques.
